WOODS, Suzanne

I have lived and worked in Calingiri for almost 40 years.

During that time, I have raised a family and actively participated in community activities.

My background in education and agriculture has enabled me to develop a clear understanding of regional issues, including the role local government fulfills for residents of rural communities.

My previous leadership roles have assisted me to develop governance and strategic planning skills. Being a local business owner, I am very aware of the requirements of sustainable financial management.

As a councillor of the Shire of Victoria Plains, I will work to strengthen the connection between council and community through encouraging open and transparent consultation, collaboration and communication.
