

AGENDA

Audit Committee Meeting

I HEREBY give NOTICE that an Audit Committee Meeting will be held on:

28 November 2024

**Shire of Victoria Plains
Council Chambers, Calingiri
AND
via E-Meeting Protocol**

Commencing – 10:30 AM

DISCLAIMER:

The recommendations contained in this document are officers' recommendations only and should not be acted upon until Council has resolved to adopt those recommendations.

The resolutions of Council should be confirmed by perusing the minutes of the Council meeting at which these recommendations were considered. Resolutions are not considered final until the minutes of the meeting are confirmed or advised in writing by the CEO or authorised person.

Members of the public should also note that they act at their own risk if they enact any resolution prior to receiving official written notification of Council's decision.

Recording of Meeting

Members of the public are advised that meetings of Council are audio recorded to assist with ensuring an accurate record of the meeting is provided for the formal minutes of the meeting. In terms of the Privacy Act 1998 this may involve the recording of personal information provided at the meeting. The provision of any information that is recorded is voluntary, however if any person does not wish to be recorded they should not address or request to address the meeting. By remaining in this meeting, you consent to the recording of the meeting.

You are not permitted to record this meeting with any recording device, unless you have the express authorisation of the Council of the Shire of Victoria Plains.

E – Disclaimer

It is the Presiding Member's responsibility to preserve order in the meeting and this can be more difficult in an eMeeting. Therefore, each Council Member must consistently and respectfully follow the Local Government's Meeting Procedures Local Law, any additional eMeeting guidance provided by the Local Government and support the Presiding Member in their conduct of the eMeeting.

The pace of an eMeeting should be slow and orderly. The following practices will help avoid confusion and support effective eMeetings:

Speak clearly and slowly, as connections may be distorted or delayed;

Always state your name to indicate to the Presiding Member that you wish to speak. Restate your name if the Presiding Member has not heard you at first;

In debate, only speak after the Presiding Member has acknowledged you. Then state your name, so that others know who is speaking;

Follow the Presiding Member's directions and rulings;

If you are unclear about what is happening in an eMeeting, immediately state your name to draw the Presiding Member's attention and enable you to then seek clarification from the Presiding Member;

Avoid looking for opportunities to call Points of Order; instead, politely and respectfully gain the Presiding Member's attention and explain any deviation from your Meeting Procedures, the Local Government Act or any other relevant matter.

PURPOSE

To review and re-establish the Audit Committee Terms of Reference.

BACKGROUND

The Shire of Victoria Plains has a terms of reference (ToR) for the Audit Committee and applicable items have rarely been referred to it but rather, presented through the ordinary council meeting.

Compliance where applicable is being met through approvals in the ordinary council meeting but staff are wishing to correct this process error and where possible, engage the Audit Committee in accordance with the ToR.

The ToR was last reviewed and amended in Aug 2021.

COMMENT

The first step of re-invigorating the ToR is to undertake a review of the current parameters and ensure there is an understanding of the requirements, legislative implications and in particular, Appendix 1 which lists reports requiring decisions.

In addition – an indicative meeting schedule has now been established that broadly sets out key dates and financial activities that should be presented to the Audit Committee prior to being approved through a council meeting.

Reports Requiring Decision

An extract of Appendix 1 of the ToR notes:

Reports Requiring Decision

The following will require reporting on from time to time:

1. Updates on the Functions of the Audit Committee.
2. External Audits e.g. Interim Audit, Annual Audit and the corresponding actions plans.
3. Internal Audits e.g. three yearly financial management systems review, three yearly Reg 17 Review, the CAR, other internal audits (as per the compliance calendar), and so on.
4. Financial Reporting e.g. best practice, status of ratios from time to time.
5. Risk Management Issues e.g. quarterly updating and reporting on key risks from time to time.
6. Controls, Systems and Procedures e.g. policy considerations, procedural considerations,
7. Matters of Compliance: as per the compliance calendar.
8. Integrated Planning and Reporting.
9. Training and Development (Elected Member Training, Committee Member Training and Staff training).
10. Status Report.

1. Updates on the Functions of the Audit Committee – D/CEO is of the view this is still fit for purpose and no change is recommended. Much of the functions centre around Regulation 17 of the Local Government (Audit) Regulations 1996 - *The CEO is to review the appropriateness and effectiveness of a local government's systems and procedures in relation to:*

- (a) risk management; and
- (b) internal control; and
- (c) legislative compliance.

Much of this is undertaken through the Audit Committee either yearly or on the applicable cycle.

2. External Audits are currently reported through the Audit Committee.
3. Internal Audits – apply through Regulation 17, is scheduled in 2024-25 and will be presented through the Audit Committee.
4. Financial Reporting is presented through ordinary council meetings but changes to legislative reporting (e.g. Band 1 vs Band 4) have previously been presented to the Audit Committee. One change recommended is the removal of ratios from the ToR which are no longer required.
5. Risk Management is presented by the CEO generally quarterly through the Audit Committee.
6. Control systems such as changes to policy is one area which has been presented at council meetings where according to the ToR, should have passed through the Audit Committee first. Some recent examples include the HR, and some aspects of the Purchasing Policy.
7. Integrated Planning and Reporting or Community Strategic Community Plan is presented to the Audit Committee by the CEO quarterly.
8. Training and Development – as required by the CEO.
9. Status Reports – as required.

Indicative Meeting Dates and Financial Activities

A schedule of meeting dates has been established for significant activities recommended for inclusion in the ToR which include:

February – review of Audit Committee ToR.

March – Budget Review, Compliance Return, Audit Entry Meeting

July – Budget Adoption

November – Audit Exit Meeting / Annual Financial Statements.

Other Audit Committee meetings will be requested on an ad hoc basis as required from time to time.

SHIRE OF VICTORIA PLAINS

PUBLIC AUDIT AGENDA

AUDIT COMMITTEE – TERMS OF REFERENCE

October 2024

Preliminaries

The Audit Committee Terms of Reference defines the membership, authority, purpose, operational guidelines, responsibilities and resources of the Shire of Victoria Plains Audit Committee, established by Council pursuant to division 1A, section 7.1A of the *Local Government Act 1995* (the Act) and the *Local Government (Audit) Regulations 1996* (the Regulations).

Structure

Name

The name of this Committee is 'Shire of Victoria Plains Audit Committee'. All references to 'Committee' in this Terms of Reference mean 'Shire of Victoria Plains Audit Committee'.

Establishment

This Committee is established under the provisions of the Act, particular division 1A, section 7.1A.

Guiding Principles

This Committee is established with the guiding principles prescribed in the Act, the Regulations and the *Local Government (Financial Management) Regulations 1996*.

Purpose

The purpose of the Audit Committee is to:

- Guide and assist the Shire of Victoria Plains in carrying out its financial management and audit functions;
- Monitor and advise the Chief Executive Officer in reviews conducted into financial management and audit systems and procedures. This also includes the Shire's risk management, internal controls and level of compliance and integrated planning and reporting (IPR) and training;
- Oversee the implementation of any resulting Council recommendations so as to support better decision-making, greater accountability to the community and ensure a more efficient and effective Local Government.

Committee Functions

Regulation 16

Under regulation 16 of the *Local Government (Audit) Regulations 1996*, an audit committee has the following functions:

- to guide and assist the local government in carrying out:
 - its functions under Part 6 of the Act; and
 - its functions relating to other audits and other matters related to financial management;
- to guide and assist the local government in carrying out the local government's functions in relation to audits conducted under Part 7 of the Act;
- to review a report given to it by the CEO under regulation 17(3) (the **CEO's report**) and is to:

- *report to the council the results of that review; and*
- *give a copy of the CEO's report to the council;*
- *to monitor and advise the CEO when the CEO is carrying out functions in relation to a review under:*
 - *regulation 17(1); and*
 - *the Local Government (Financial Management) Regulations 1996 regulation 5(2)(c);*
- *to support the auditor of the local government to conduct an audit and carry out the auditor's other duties under the Act in respect of the local government;*
- *to oversee the implementation of any action that the local government:*
 - *is required to take by section 7.12A(3); and*
 - *has stated it has taken or intends to take in a report prepared under section 7.12A(4)(a); and*
 - *has accepted should be taken following receipt of a report of a review conducted under regulation 17(1); and*
 - *has accepted should be taken following receipt of a report of a review conducted under the Local Government (Financial Management) Regulations 1996 regulation 5(2)(c);*
- *to perform any other function conferred on the audit committee by these regulations or another written law.*

Regulation 14(3A)

Under section 14(3A) of the Regulations, the Audit Committee:

(3A) The local government's audit committee is to review the compliance audit return (CAR) and is to report to the council the results of that review.

Notes - Regulation 17 Review

17. CEO to review certain systems and procedures:

(1) The CEO is to review the appropriateness and effectiveness of a local government's systems and procedures in relation to:

- (a) risk management; and
- (b) internal control; and
- (c) legislative compliance.

(2) The review may relate to any or all of the matters referred to in subregulation (1)(a), (b) and (c), but each of those matters is to be the subject of a review not less than once in every 3 financial years.

(3) The CEO is to report to the audit committee the results of that review.

Notes – Regulation 5 (2)(c) – Review of Financial Management Systems

(2) The CEO is to:

- (a) ensure that the resources of the local government are effectively and efficiently managed; and
- (b) assist the council to undertake reviews of fees and charges regularly (and not less than once in every financial year); and
- (c) undertake reviews of the appropriateness and effectiveness of the financial management systems

and procedures of the local government regularly (and not less than once in every 3 financial years) and report to the local government the results of those reviews.

Notes – Section 7.12A(3) and 7.12A(4)(a) – Examine and Action Audit Report and Significant Matters

7.12A. Duties of local government with respect to audits:

(3) A local government must:

- (aa) examine an audit report received by the local government; and
- (a) determine if any matters raised by the audit report, require action to be taken by the local government; and
- (b) ensure that appropriate action is taken in respect of those matters.

(4) A local government must:

- (a) prepare a report addressing any matters identified as **significant** by the auditor in the audit report, and stating what action the local government has taken or intends to take with respect to each of those matters

Notes – Local Government Amendment Auditing Act 2017

The Auditor General became responsible for conducting local government audits from 27 October 2017. Local governments were required to take up the Auditor General as their auditor by 2020/21 once their current audit contract ceased. For the Shire of Victoria Plains this legislative requirement was effective from 2018/2019.

Membership

Pursuant to division 1A, section 7.1A of the Act:

- *The members of the audit committee of a local government are to be appointed* by the local government and at least 3 of the members, and the majority of the members, are to be council members.*
- **Absolute majority required.*
- *A CEO is not to be a member of an audit committee and may not nominate a person to be a member of an audit committee or have a person to represent the CEO as a member of an audit committee.*
- *An employee is not to be a member of an audit committee.*

The Committee consists of three (3) members and two (2) deputy members:

1. The members and deputy members are made up from the Elected Members of Council;
2. There is required to be a Presiding Member;
3. The deputy member:
 - a. Fills in for the office of audit committee member when a member is unavailable, or the office is vacant.
 - b. Has the same responsibilities as a member when attending an audit committee meeting in the capacity of a member as established in 3.a.

Meetings

a. Committee Meetings

The Committee shall meet four times a year, unless a special meeting of the Committee is called for a specified purpose. Meetings are conducted according to the Shire of Victoria Plains Meeting Procedures Local Law. The content of the agenda is set out in Appendix 1.

b. Quorum

The quorum for any meeting of this Committee shall be 50 percent of members as endorsed by Council at the time of the meeting.

c. Voting

Shall be in accordance with section 5.21 of the Act, with all members endorsed as voting members entitled and required to vote, subject to the provisions of the Act which deal with Financial and Proximity Interests.

d. Minutes

The Minutes of the meeting shall be recorded and prepared as per the provisions of section 5.22 of the Act.

The content of the minutes shall be in accordance with the *Local Government (Administration) Regulations 1996* section 11.

The content of minutes of a meeting of a council or a committee is to include:

- (a) the names of the members present at the meeting; and*
- (b) where a member enters or leaves the meeting during the course of the meeting, the time of entry or departure, as the case requires, in the chronological sequence of the business of the meeting; and*
- (c) details of each motion moved at the meeting, the mover and the outcome of the motion; and*
- (d) details of each decision made at the meeting; and*
- (da) written reasons for each decision made at the meeting that is significantly different from the relevant written recommendation of a committee or an employee as defined in section 5.70 (but not a decision to only note the matter or to return the recommendation for further consideration); and*
- (e) a summary of each question raised by members of the public at the meeting and a summary of the response to the question; and*
- (f) in relation to each disclosure made under section 5.65 or 5.70 in relation to the meeting, where the extent of the interest has also been disclosed, the extent of the interest.*

The above is an extract of the Regulations. The criteria regarding questions raised by the public (e) is not applicable as the Audit Committee meetings are not open to the public. If the Committee resolves, the minutes may include a table of 'action items', summarising the agreed actions.

e. Who acts if the presiding member is unavailable?

Shall be in accordance with section 5.14 of the Act i.e. a committee member elected by the

Committee.

f. Meeting Not Open to the Public

Meetings are not open to the public as per the provisions of section 5.23 of the Act.

g. Public Question Time

As the Committee has no delegated powers (section 5.24 of the Act), there is no specific provision for public question time.

h. Members' Conduct

Council Members of the Committee shall be bound by the following

- i. The provisions of section 5.65 of the Act;

PURPOSE

This exit meeting is to brief the audit committee on the findings of the audit for 2023-24 financial statements and any matters listed in the management letter.

BACKGROUND

The Audit Committee has previously received the Audit Strategy Memorandum which included:

- Audit Approach.
- Significant aspects of this years audit.
- Audit Strategy Memorandum and key requirements.

During the months of Oct and Nov 24 William Buck Chartered Accountants conducted the audit of councils financial statements including acquittals of both Roads to Recovery (R2R) and Local Roads and Community Infrastructure Program (LRCIP). This has occurred both remotely and through a site visit.

William Buck are now in a position to undertake the exit meeting, briefing the audit committee on the outcome of the audit.

COMMENT

The audit for both Roads to Recovery (R2R) and Local Roads and Community Infrastructure Program (LRCIP) were completed and sent to the applicable Federal Government Agencies within the deadline of 31 Oct 24 without any qualifications or adverse findings.

The Annual Financial Report 23-24 has now been returned to the shire and at the time of writing requires some minor superficial changes. Importantly, the actual surplus of \$100,993 has now officially been confirmed as correct via the audit.

AUDIT REPORT

The audit report at the time of writing has not been provided but indications are the Annual Financial Report 23-24 is a true and correct view with no adverse findings.

AUDIT MANAGEMENT LETTER

The draft management letter and shire staff response is provided in attachment 1, the findings summarised as:

Index of findings	Potential impact on audit opinion	Rating			Prior year finding
		Significant	Moderate	Minor	
1. Unallocated Receipt Reserve	No		✓		✓
2. Revenue Cut-Off issues	No		✓		
3. Credit Card Balances	No			✓	
4. Useful life of infrastructure	No			✓	

Unfortunately despite a number of efforts to remediate item 1, including following audit advice over several years, issue remains. This will continue to be on the audit until such time as the statutory period (10 years) expires as all efforts have now been exhausted.

Other items listed in the findings are reasonable and agreed to.

**SHIRE OF VICTORIA PLAINS
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024**

I. BASIS OF PREPARATION

The financial report of the Shire of Victoria Plains which is a Class 4 local government comprises general purpose financial statements which have been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996* prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the *Local Government Act 1995*, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied except for disclosure requirements of:

- AASB 7 Financial Instruments Disclosures
- AASB 16 Leases paragraph 58
- AASB 101 Presentation of Financial Statements paragraph 61
- AASB 107 Statement of Cash Flows paragraphs 43 and 45
- AASB 116 Property, Plant and Equipment paragraph 79
- AASB 137 Provisions, Contingent Liabilities and Contingent Assets paragraph 85
- AASB 140 Investment Property paragraph 75(f)
- AASB 1052 Disaggregated Disclosures paragraph 11
- AASB 1054 Australian Additional Disclosures paragraph 16

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 Leases which would have required the Shire to measure any vested improvements at zero cost.

The *Local Government (Financial Management) Regulations 1996* provide that:

- land and buildings classified as property, plant and equipment; or
- infrastructure; or
- vested improvements that the local government controls;

and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from AASB 116 *Property, Plant and Equipment* which would have required the Shire to assess at each reporting date whether the varying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates and judgements

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable value including:
 - Property, plant and equipment - note 8
 - Infrastructure - note 9
- Expected credit losses on financial assets - note 5
- Measurement of employee benefits - note 15

Fair value hierarchy information can be found in note 22

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 28 of the financial report.

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

- AASB 2021-2 Amendments to Australian Accounting Standards
- Disclosure of Accounting Policies or Definition of Accounting Estimates

This standard resulted in terminology changes relating to material accounting policies (formerly referred to as significant accounting policies).

New accounting standards for application in future years

The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- AASB 2020-1 Amendments to Australian Accounting Standards
- Classification of Liabilities as Current or Non-Current
- AASB 2021-7c Amendments to Australian Accounting Standards
- Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections (deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply)
- AASB 2022-5 Amendments to Australian Accounting Standards
- Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards
- Non-current Liabilities with Covenants

These amendments are not expected to have any material impact on the financial report on initial application.

- AASB 2022-10 Amendments to Australian Accounting Standards
- Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities

These amendment may result in changes to the fair value of non-financial assets. The impact is yet to be quantified.

- AASB 2023-1 Amendments to Australian Accounting Standards
- Supplier Finance Arrangements

These amendments may result in additional disclosures in the case of applicable finance arrangements.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted financial assets

Restricted financial asset balances are not available for general use by the local government due to externally imposed restrictions. Restrictions are specified in an agreement, contract or legislation. This applies to reserve accounts, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement and for which no liability has been recognised.

Fair value of financial assets at fair value through profit or loss is determined from the net asset value of the units held in the Trust at balance date as compiled by WALGA.

MATERIAL ACCOUNTING POLICIES

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Fair values of financial assets at amortised cost are not materially different to their carrying amounts, since the interest receivable on those assets is either close to current market rates or the assets are of a short term nature. Non-current financial assets at amortised cost fair values are based on discounted cash flows using current market rates. They are classified as level 2 fair values in the fair value hierarchy (see Note 22 (ii) due to the observable market rates).

Interest received is presented under cashflows from operating activities in the Statement of Cash Flows where it is earned from financial assets that are held for cash management purposes.

Financial assets at fair value through profit or loss

The Shire has elected to classify the following financial assets at fair value through profit or loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the Shire has elected to recognise as fair value gains and losses through profit or loss.

MATERIAL ACCOUNTING POLICIES

Rates and statutory receivables

Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

Other receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers and amounts received as grants for the construction of recognisable non financial assets.

Measurement

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value.

Classification and subsequent measurement

Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

10. FIXED ASSETS (Continued)

MATERIAL ACCOUNTING POLICIES

Initial recognition

An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost.

Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Local Government (Financial Management) Regulation 17A(5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.

Measurement after recognition

Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under *Local Government (Financial Management) Regulation 17A(2)*. Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses being their reportable value.

Reportable Value

In accordance with *Local Government (Financial Management) Regulation 17A(2)*, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.

Reportable value is for the purpose of *Local Government (Financial Management) Regulation 17A(4)* is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.

Revaluation

Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the Shire.

Whilst the regulatory framework only requires a revaluation to occur every five years, it also provides for the Shire to revalue earlier if it chooses to do so.

For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity.

Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset.

Depreciation

The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation on revaluation

When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset.
- (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Impairment

In accordance with *Local Government (Financial Management) Regulations 17A(4C)*, the Shire is not required to comply with *AASB 136 Impairment of Assets* to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.

In other circumstances where it has been assessed that one or more of these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses on disposal

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

Rental income

The Shire leases houses to staff and aged persons with rents payable fortnightly and the sports club with rent payable annually. These leases are classified as operating leases as they do not transfer substantially all of the risks and rewards incidental to ownership of the assets.

Staff houses and the sports club are not considered investment property as they are leased for use in the supply of services to the community. The aged persons units are considered a joint operation and are not considered investment property as the primary purpose is provision of community housing.

Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Although the Shire is exposed to changes in the residual value at the end of the current leases, the Shire group typically enters into new operating leases and therefore will not immediately realise any reduction in the residual fair value at the end of the leases. Expectations about the future residual values are reflected in the fair value of the properties.

MATERIAL ACCOUNTING POLICIES

The Shire as Lessor

Upon entering into each contract as a lessor, the Shire assesses if the lease is a finance or operating lease.

The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease.

Initial direct costs incurred in entering into an operating lease (e.g. legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

When a contract is determined to include lease and non-lease components, the Shire applies AASB 15 *Revenue from Contracts with Customers* to allocate the consideration under the contract to each component.

MATERIAL ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are initially recognised at fair value when the Shire becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and any consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are usually paid within 30 days of recognition. The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises income for the prepaid rates that have not been refunded.

MATERIAL ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

Contract liabilities represent obligations which are not yet satisfied. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Secured liabilities and assets pledged as security

Bank overdrafts and loans are secured by a floating charge over the assets of the Shire of Victoria Plains.

The Shire of Victoria Plains has complied with the financial covenants of its borrowing facilities during the 2024 and 2023 years.

MATERIAL ACCOUNTING POLICIES

Borrowing costs

The Shire has elected to recognise borrowing costs as an expense when incurred regardless of how the borrowings are applied.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature.

Borrowings fair values are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy (see Note 22(ii)) due to the unobservable inputs, including own credit risk.

Details of individual borrowings required by regulations are provided at Note 26(a).

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave and associated on costs for services rendered up to the reporting date and recorded as an expense during the period the services are delivered.

Annual leave liabilities are classified as current, as there is no unconditional right to defer settlement for at least 12 months after the end of the reporting period.

MATERIAL ACCOUNTING POLICIES

Employee benefits

The Shire's obligations for employees' annual leave, long service leave and other employee leave entitlements are recognised as employee related provisions in the Statement of Financial Position.

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits provisions are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

MATERIAL ACCOUNTING POLICIES

Joint operations

A joint operation is a joint arrangement where the Shire has joint control with two or more parties to the joint arrangement. All parties to joint arrangement have rights to the assets, and obligations for the liabilities relating to the arrangement.

Assets, liabilities, revenues and expenses relating to the Shire's interest in the joint operation are accounted for in accordance with the relevant Australian Accounting Standard.

**SHIRE OF VICTORIA PLAINS
NOTES TO AND FORMING PART OF THE FINANCIAL REPORT
FOR THE YEAR ENDED 30 JUNE 2024**

22. OTHER MATERIAL ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) Statement of Financial Position as at the beginning of the preceding period in addition to the minimum comparative financial report is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Interest revenue

Interest revenue is calculated by applying the effective interest rate to the gross carrying amount of a financial asset measured at amortised cost except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

i) Fair value hierarchy

AASB 13 *Fair Value Measurement* requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

j) Impairment of assets

In accordance with Australian Accounting Standards the Shire's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount except for non-financial assets that are:

- land and buildings classified as property, plant and equipment;
- infrastructure; or
- vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in asset values.

These non-financial assets are assessed in accordance with the regulatory framework detailed in Note 10.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116 *Property, Plant and Equipment*) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

SHIRE OF VICTORIA PLAINS**PERIOD OF AUDIT: YEAR ENDED 30 JUNE 2024****FINDINGS IDENTIFIED DURING THE FINAL AUDIT**

Index of findings	Potential impact on audit opinion	Rating			Prior year finding
		Significant	Moderate	Minor	
1. Unallocated Receipt Reserve	No		✓		✓
2. Revenue Cut-Off issues	No		✓		
3. Credit Card Balances	No			✓	
4. Useful life of infrastructure	No			✓	

KEY TO RATINGS

The Ratings in this management letter are based on the audit team's assessment of risks and concerns with respect to the probability and/or consequence of adverse outcomes if action is not taken. We give consideration to these potential adverse outcomes in the context of both quantitative impact (for example financial loss) and qualitative impact (for example inefficiency, non-compliance, poor service to the public or loss of public confidence).

- Significant** - Those findings where there is potentially a significant risk to the entity should the finding not be addressed by the entity promptly. A significant rating could indicate the need for a modified audit opinion in the current year, or in a subsequent reporting period if not addressed. However, even if the issue is not likely to impact the audit report, it should be addressed promptly.
- Moderate** - Those findings which are of sufficient concern to warrant action being taken by the entity as soon as practicable.
- Minor** - Those findings that are not of primary concern but still warrant action being taken.

SHIRE OF VICTORIA PLAINS**PERIOD OF AUDIT: YEAR ENDED 30 JUNE 2024****FINDINGS IDENTIFIED DURING THE FINAL AUDIT****1. Unallocated Receipt Reserve****Observation**

The Shire has an unallocated receipt reserve which amounted to \$7,628.18 at 30 June 2024 (30 June 2023: \$5,916.20). This reserve was previously classified as a suspense account under payables in the previous years. It relates to miscellaneous payments received to the Shire with no information provided on what the payments relates to. The Shire has performed various initiatives to reduce this balance by ensuring that all receipts have adequate descriptions and reference numbers, however, there has been an increase in the amount of unidentified receipts being received by the Shire, which is now classified as a reserve.

This finding was first raised in 2021-22.

Rating: Moderate (2023: Moderate)

Implication

The suspense account balance (if not reconciled on a timely basis) will continue to grow and there is an increased risk that the reconciliation will become onerous. In addition, there is an increased risk of fraud as the funds are unaccounted for.

Recommendation

We recommend that the reconciliation of suspense accounts be performed on a timely basis where possible.

The Shire should continue to remind people to include an adequate description when they make payments to the Shire.

Management comment

The shire has implemented all previous recommendations by the auditors and the recommendation above is a regurgitation of these previous recommendations. The shire transferred these monies to a Reserve to impose tighter controls (i.e. the funds are now restricted and require approval to be transferred) in response to the implication of increased fraud – its own initiative.

In the current year the shire has implemented the BPAY system as an additional measure to reduce unidentified monies which has had a significant effect (no unallocated monies to date). However this still does not alleviate this historical balance which has been communicated previously.

Barring any other solution, the shire is now resigned to the fact this will continue to be on the management letter, with no practical solution suggested from the audit until the statutory period for holding these monies is expired.

SHIRE OF VICTORIA PLAINS**PERIOD OF AUDIT: YEAR ENDED 30 JUNE 2024****FINDINGS IDENTIFIED DURING THE FINAL AUDIT****2. Revenue Cut-Off issues****Observation**

During our revenue cut-off tests, we found 4 (out of 13) sales invoices, amounting to \$31,284.14, which were recorded in the incorrect accounting period. These adjustments were communicated to management and were corrected in FY 2024.

Rating: Moderate**Implication**

There is a risk that revenue is misstated.

Recommendation

We recommend that management establish procedures to ensure sales invoices for the current financial year issued post year-end are captured in the current financial year's financial records.

Management comment

Noted and agreed.

Responsible person: Colin Ashe**Completion date 20/11/24**

SHIRE OF VICTORIA PLAINS**PERIOD OF AUDIT: YEAR ENDED 30 JUNE 2024****FINDINGS IDENTIFIED DURING THE FINAL AUDIT****3. Credit Card Balances****Observation**

Based on our review of Bendigo and Adelaide Bank bank confirmation, we noted that there are four (4) credit balances amounting to \$ 6,679.05 arising from four (4) credit cards as at 30 June 2024. These credit balances have not been captured in the Trial Balance and therefore, have not been reported in the financial statements. The overall amount is immaterial.

Rating: Minor**Implication**

There is a risk that the liabilities reported in the financial statements is understated.

Recommendation

We recommend that management recognize all credit card balances in the accounts to ensure all liabilities incurred by the Shire are captured in the Shire's financial records, including the financial statements.

Management comment

Noted and agreed though as indicated, the amount is of a minor nature and immaterial, therefore this risk is very low.

Responsible person: Colin Ashe

Completion date: 20/11/24

SHIRE OF VICTORIA PLAINS**PERIOD OF AUDIT: YEAR ENDED 30 JUNE 2024****FINDINGS IDENTIFIED DURING THE FINAL AUDIT****4. Useful Life of Infrastructure****Observation**

From our review of the Shire's Infrastructure depreciation, we noted that the useful life for 2 infrastructure assets (Footpaths and Shire Administration- Carpark) were not complying with the Shire's fixed assets policy. This has impacted the depreciation calculation for those assets. The implied useful life used to calculate depreciation for those assets were higher than the maximum useful life as stated in Shire's fixed asset policy. The overall impact is immaterial.

Rating: Minor**Implication**

There is a risk of misstatement for both infrastructure and depreciation expenses balances.

Recommendation

We recommend that management review the useful life of all fixed assets belonging to the Shire to ensure that the useful life for all assets comply with the Shire's fixed asset policy.

Management comment

Noted and agreed – the review has already been completed through transfer of the Fixed Asset Register to the new finance system.

PURPOSE

To conduct the first budget review for 2024-25 based on Oct 24 financial statements for the Audit Committee approval.

BACKGROUND

Council approved the 2024-25 budget that forecast a surplus of \$15,002 at year end and this was based on an estimated actual closing balance surplus of \$379,199 from 23/24.

During monthly financial reporting in 24/25 it has been noted there would likely be a significant variance to the actual closing surplus from 23/24 post the Audited Financial Report 23-24 but this would be offset by reduced budget requirements in the current financial year.

Now that the Annual Financial Report 23/24 has been completed, the audited financial position and surplus /deficit can now be factored into the 24/25 financial reporting and budget 24/25.

The first budget review has now been completed utilising Oct 24 data for the audit committee to review. Noting this is a new financial system, there are still some adjustments required to be made as the system, set up and reporting matures.

COMMENT

BUDGETED OPENING SURPLUS VS ACTUAL SURPLUS:

The budgeted opening surplus for 2024-25 was forecast to be \$379,198 as opposed to the actual surplus of \$100,993, a net difference of **(\$278,205)** as provided below:

Shire of Victoria Plains

Total Adjustments	- 722,257	- 688,087	34,170
Closing Surplus	379,198	100,993	- 278,205

With a focus on the larger figures this can be explained by:

- Current Assets was under estimated which has assisted in reducing the difference. Of note the contract assets difference is primarily the line marking cost which has been invoiced in 24-25.
- Trade and other payables is for accrued salaries and wages and accrued expenses which the budget 24-25 can be reduced as the offset.
- Contract Liabilities is the WSFN the net credit note presented at the Nov 24 briefing session which has been budgeted for in 24-25 as the offset.

1ST Quarter Budget Review 24/25:

Whilst the majority of the variance in the opening surplus position has offset in a reduction in budget requirements for 2024-25, the analysis did reveal a **(\$45,962)** underestimate in the forecast.

In addition, the first the budget review can be summarised as:

- **(\$12,894)** in reduced rate income due to reduction in ex-gratia rates forecast.

- Water Supply upgrades on Goudge and Parker Roads will require a cost contribution from the shire of **(\$72,378)** not budgeted for.
- **(\$60,000)** will be required for CouncilFirst slippage of the project into 24-25 not budgeted for.
- RRG reduction in scope will reduce cost to the shire of \$102,630.

Overall, a conservative approach has been undertaken to this first review given its timing with the initial results indicating a **(\$88,203)** forecast deficit as at 30 June 2025. Management will continue to closely monitor the financial outcomes to endeavour to find savings and offsets to bring this forecast back to a surplus.

PURPOSE

For the Audit Committee to accept the September Quarterly Update for the Shire's Risk Register.

BACKGROUND

The Shire maintains a risk register regarding the key risks (exposure) to the organisation. The Audit Committee last received a report on the risk register at its February 2024 meeting.

COMMENT

The Shire's Corporate Risk treatment improved from the June Quarter. In particular:

- Extreme risks reduced from 14% to 3%. This was due to:
 - E4 Further clarification by Green Wind Renewables re Grevillea Wind Farm and Wandoo Wind Farm;
 - E5 Advice by Caravel that the Environmental Review Document is due for release in early 2025;
 - E6 Key improvements to the Corella Management Program:
 - Establishment of the NRM Steering Committee;
 - Firming up of the Budget;
 - Approval on the use of Alphachloralose
- Low risks (those completed) increased from 36% to 38% due to the successful implementation of BPay (S5);
- Although Moderate risks increased, this reflects the introduction of the new risk H2 re the Tier 1 WHS Action Plan (H2). The Corella Management Program (E6) also transitioned from Extreme to Moderate due to the key improvements in the management of this program by Wheatbelt NRM;
- The High Risk category did increase from 18% to 24% but this reflects the transition of Extreme Risks to High (E4 & E5).

Many other risks continued key activity that will improve the Shire's corporate risk treatment in due course.

The Disaster Recovery Plan (S4) is yet to commence. This should get underway in November 2024

PUBLIC AUDIT AGENDA

Shire of Victoria Plains: September Quarter 2024

Reference ID	Describe the risk	Rate the likelihood	Rate the consequence	= Resulting level of risk	Describe how adequate current controls are	Give it a risk priority
Eg. risk # 1	What can happen? How can it happen? When can it happen?	- Almost Certain - Likely - Possible - Unlikely - Rare	- Insignificant - Minor - Moderate - Major - Catastrophic	- Low - Moderate - High - Extreme	- Effective - Adequate - Inadequate	- A - Must - B - Should - C - Could
S1: No power for more than a day Example: delete after reading or leave as a guide.	Power failure for more than one day Loss of all frozen stock, refrigerated food, food and drink cabinets Security system may not operate, staff cannot lock up No lighting to kitchen or elsewhere Could happen anytime, night or day, no notice Air con, exhaust fans and hand dryers will not work No appliances, but stoves will work if lit manually. No hot water Cash register, stock control and EFTPOS etc will not operate	Unlikely	Major	Moderate	Inadequate. Backup generator does not run Insurance will not cover losses. Not sure if security system has a battery backup	B
Health						
H1 8/01/24	Staff exposed to physical injury or trauma (including stress) that has impacts for more than 10 days	Likely	Moderate	High	Adequate – safe work practices are in place, WHS Committee in place and EAP is in place. Mental Health Sessions held quarterly	B
H2 24/10/24	Shire fails to implement Tier 1 WHS Action Plan. Failure to implement the WHS Action Plan will see the Shire exposed to corrective action or prosecution by WorkSafe. Also exposes staff to potential harm	Possible	Major	High	Inadequate – Controls (processes) not operating as intended ie there is no Action Plan in place.	A

Shire of Victoria Plains: September Quarter 2024

**Financial Impact**

F1 27/03/23	WSFN – Mogumber Yarrawindah Rd Upgrades 2021/2022 and 2022/2023 – Deferred due to RFQ costs 50% above budget	Likely	Catastrophic	Extreme	Inadequate – proposed project management does not meet WFSN requirements. Costs up by 50%	A
F2 27/03/23	Calingiri New Norcia Road and Toodyay Bindi Bindi Road Intersection – On hold due to RFQ costs 50% above budget, Shire expending allocated MRWA funds in 2021/2022, land acquisition drawn out	Likely	Major	High	Inadequate – Shire funds spent on other operations. Costs up by 50%.	A

Shire of Victoria Plains: September Quarter 2024

Executive Summary

The Shire's Corporate Risk treatment improved from the June Quarter. In particular:

- Extreme risks reduced from 14% to 3%. This was due to:
 - E4 Further clarification by Green Wind Renewables re Grevillea Wind Farm and Wandoo Wind Farm;
 - E5 Advice by Caravel that the Environmental Review Document is due for release in early 2025;
 - E6 Key improvements to the Corella Management Program:
 - Establishment of the NRM Steering Committee;
 - Firming up of the Budget;
 - Approval on the use of Alphachloralose
- Low risks (those completed) increased from 36% to 38% due to the successful implementation of BPay (S5);
- Although Moderate risks increased, this reflects the introduction of the new risk H2 re the Tier 1 WHS Action Plan (H2). The Corella Management Program (E6) also transitioned from Extreme to Moderate due to the key improvements in the management of this program by Wheatbelt NRM;
- The High Risk category did increase from 18% to 24% but this reflects the transition of Extreme Risks to High (E4 & E5).

Many other risks continued key activity that will improve the Shire's corporate risk treatment in due course.

The Disaster Recovery Plan (S4) is yet to commence. This should get underway in November 2024

Risk assessment and acceptance criteria (part three)

Measures of Consequence							
Type	Health	Financial Impact	Service Interruptions	Compliance	Reputation	Property	Environmental
Insignificant (1)	Near miss / minor first aid injuries	Less than \$10,000	No material service interruption	No noticeable regulatory or statutory impact. Threat of litigation. No effect on contract performance.	Unsubstantiated, low impact, no media involvement Example Gossip, Facebook item seen by limited persons	Inconsequential or no damage.	Contained, reversible impact managed by on site response
Minor (2)	Medical type injuries / Lost time injury <30 Days	\$10,000 - \$50,000	Short term temporary interruption – backlog cleared (< 1 day)	Some temporary non compliances. Single minor litigation. Requires formal meeting with contracted party where concern is raised.	Substantiated, low impact, low news profile Example Local paper / Industry news article, Facebook item seen by multiple groups	Localised damage rectified by routine internal procedures	Contained, reversible impact managed by internal response
Moderate (3)	Medical type injuries / Lost time injury >30 Days	\$50,001 to \$250,000	Medium term temporary interruption – backlog cleared by additional resources (< 1 week)	Short term non-compliance but with no significant regulatory requirements imposed. Single moderate litigation or numerous minor litigations.	Substantiated, public embarrassment, moderate impact,, moderate news profile. Example State-wide paper, TV News story.	Localised damage requiring external resources to rectify	Contained, reversible impact managed by external agencies

Shire of Victoria Plains: September Quarter 2024

Major (4)	Long-term disability / multiple injuries	\$250,001 to \$1,000,000	Prolonged interruption of services – additional resources; performance affected (< 1 month)	Non-compliance results in termination of service or imposed penalties. Single major litigation.	Substantiated, public embarrassment, high impact, high news profile, Third Party actions Example Australia wide news stories. Regulatory / Political commentary involvement	Significant damage requiring internal & external resources to rectify	Uncontained, reversible impact managed by a coordinated response from external agencies
Catastrophic (5)	Fatality, permanent disability	>\$1,000,000	Indeterminate prolonged interruption of services – non-performance (> 1 month)	Non-compliance results in litigation, criminal charges or significant damages or penalties. Numerous major litigations / class action.	Substantiated, public embarrassment, very high multiple impacts, high widespread multiple news profile, Third Party actions Example World wide news, Focused articles (e.g. 60 minutes). Regulatory / Political oversight and involvement.	Extensive damage requiring prolonged period of restitution Complete loss of plant, equipment & building	Uncontained, irreversible impact

PURPOSE

For the Audit Committee to accept the update regarding the Shire's Risk Profiles and Dashboard.

BACKGROUND

The Risk Profiles capture the Shire's 15 operational risks. These risks are monitored at the Executive/Management level. These are:

- Asset Sustainability
- Document Management
- Environment Management
- Management of Facilities, Venues and Events
- Project / Change Management
- Business and Community Disruption
- Employment Practices
- Errors, Omissions and Delays
- IT, Communication Systems and Infrastructure
- Purchasing and Supply
- Compliance Obligations
- Community Engagement
- External Theft and Fraud
- Misconduct
- WHS

As such, the dashboard and profiles have not been reported on since February this year. However, at the Senior Management Team meeting on 29 October 2024, the executive went through and considered where the profiles were at in terms of closing the risk gap for each one. This is set out in Attachment 1.

COMMENT**Diagram 1 - Dashboard One – Web Diagram of Risk Profiles**

The key to understanding the Dashboard is the difference between the Inherent Risk and the Residual Risk. The Inherent Risk shows what the risk was assessed at when it was first assessed. The Residual Risk reflects the improvements made to each risk profile.

Dashboard One shows the following improvements to the risk profiles since February 2024:

- External Theft and Fraud transitioned from Adequate to Effective. In the main this is due to the implementation of Council First;
- 8 out of 15 Profiles, the Risk is accepted;
- 6 out of 15 are still Monitor;
- 1 remains Urgent Attention (Asset Sustainability).

Profile Breakdown – Risks Requiring Further Action

Table One sets out the status of the risk profiles regarding the risk acceptance that need further action:

Profile	Risk Acceptance Update – Monitor/Urgent Action
Asset Sustainability	• Development of Disposal Process on hold? • Building Maintenance Program is set for completion Nov 24. • The Local Heritage Strategy has been reviewed by Council in August 2024 - Final draft required. • Asset Management Strategy in place - the Implementation Plan to take effect from November 2024. • No change to Overall Risk Effectiveness ie Adequate. The residual Risk remains Moderate.

Compliance	- Compliance Calendar automated August 2024. - Advice subscriptions re WALGA, LGIS, Fitzgerald Strategies work well - status changed from Adequate to Effective. - Reg17 and FMR matters addressed - second half of 2025 should be next review. Council policies continue to be reviewed. - HR policies updated with Council. - Executive Instructions have continued to be updated. Overall Control Effectiveness has no change i.e Adequate. The Residual Risk remains Moderate.
Employment Practices	- Performance Reviews now occur in September, except for CEO. Direct reports to CEO will have their annual review in October. - Staff CPD and Staff Attraction and Development strategies not undertaken to date due to resourcing devoted to implementation of Council First and the new Payroll System (which was exemplary). - The Workforce Plan is currently under review as part of the Minor Review process. - Overall Control Effectiveness remains at Moderate. The Residual Risk remains at Moderate.
Errors, Omissions, Delays	- Compliance Calendar (Attain) implemented in August 2024. Delegations under review. Does not include IPR - However, Council First has been asked to develop. - Overall Control Effectiveness remains at Effective. Residual Risk is Low.
Misconduct	- Fraud and Corruption Plan completed. - Cash Handling Procedures changed from Adequate to Effective (documented procedures in place and there have been no incidences). - Culture Shaper shows Staff culture is at 85%. Overall Control Effectiveness remains at Effective. - The Residual Risk remains Moderate
Purchasing and Supply	- Contractor Management Procedures not developed as focus has been on the implementation of Council First, which was finished in October 2024 - CEO is a member of WALGA Procurement Group and attends meetings/briefings where possible. - Overall Control Effectiveness remains at Adequate and the Residual Risk remains at Moderate. the Risk Evaluation remains at Monitor
WHS	- Tier 1 WHS assessment was conducted on 16/10/24. Action Plan will encapsulate improvements to SWMS. - Admin/WHS Officer provides quarterly WHS report to SMT Meetings. - Overall Effectiveness remains at Adequate. The Residual Risk remains Moderate. The Risk Evaluation remains at Monitor

Table One – Risk Profiles that are Monitor or Urgent Action

As a result of the latest review of the risk profiles, the focus for the next eight months will be the following:

PURPOSE

That the Audit Committee accept the Compliance Calendar update.

BACKGROUND

One of the CEO's KPI's for the current performance period was the implementation of a Compliance Calendar based on proprietary software by February 2025.

The Shire was able to obtain and implement Attain from 1 August 2024.

Prior to the Attain Compliance Calendar, the Shire maintained a spreadsheet to track matters of compliance.

Attain is an automated system that issues compliance actions to staff and allows them to respond and update the action on-line. Reminders are issued each Monday morning.

Attain also auto generates annual returns for completion by Elected Members and Officers with delegations.

COMMENT

Attached for the Committee Members information, so they can see what the system does, are three reports from Attain:

- Compliance Calendar Completed 1 August – 14 November 2024;
- Compliance Calendar Outstanding: 1 August – 14 November 2024;
- Compliance Calendar Upcoming Items: 14 November – 31 December 2024.

At this point in time, there are 5 items outstanding, of which three are regarding the annual waste collection reporting (now underway), updating of the BCTIF Levy and the closing out of the annual performance reviews (which have been completed but there are a handful of reports to be signed off on). There are 14 compliance actions due by the end of 2024.

Overall, the author is satisfied regarding the Attain system and the ease of use it has introduced regarding automation. Staff are refining the compliance database as they go.

Attain is also being used to manage the Shire's delegations and it is expected that the conversion of the existing delegations to the Attain format will be completed in time for the review of delegations February – April 2025.

PURPOSE

For the Audit Committee to receive an update on the Minor Review of the Integrated Community Plan (SCP).

BACKGROUND

Under the Integrated Planning and Reporting Framework and Guidelines state that local governments are required every two years to conduct a Minor and Major Review of the Strategic Community Plan (SCP).

The Major Review is conducted four yearly, which means the Minor Review is conducted in the intervening two year period.

The Minor Review is primarily a desktop exercise and tends to focus on resetting the Corporate Business Plan with consequential amendments to the core informing strategies as required. However, if significant changes are on the cards, then community engagement or consultation is expected. The degree of consultation or engagement should be reflective of the significance of the proposed change.

However, it is also an opportunity to also see if the other Informing Strategies are fit for purpose. For the Shire of Victoria Plains this includes the following:

- **Corporate Business Plan (CEO).** The annual review of the CBP was completed in July 2024 and so no further action is required. However, it may need tweaking if there are minor amendments made to the SCP;
- **Asset Management Plan (CEO).** The review of the AMP is already underway, through the development of a draft Asset Management Strategy. This will help us address any underperforming asset ratios. Also, we will need to identify who should undertake asset management tasks going forward;

- **Workforce Plan (HR/Payroll).** This plan requires a review to:
 - Identify any future staffing gaps in light of recent changes/expected developments across the Shire; and
 - That the strategies to support and develop the workforce are correct;
- **Long Term Financial Plan (DCEO).** Superficial Review only:
 - The financial information is reported in a more succinct way; and
 - The supporting data can be revised to help address underperforming financial ratios;
- **ICT Plan (DCEO).** Although this plan is new, a quick desktop review would be appropriate.

Council adopted the Integrated Strategic Plan (or SCP) at the August 2022 OCM. Correspondingly, this meant that the Minor Review needed to commence in September 2024.

Council was advised at the October 2024 OCM that the Minor Review would commence in October 2024 and conclude at the November 2024 OCM. However, due to time constraints, Council was advised at the November Briefing Session that the timeline has been revised as follows:

Minor (2 Year) Review of SCP

Staff have completed both workshops and the outcomes of the Review have been drafted as a supplementary document to the SCP.

COMMENT

The Shire reviews the Corporate Business Plan annually and so meets the requirement regarding resetting of the Corporate Business Plan.

The Minor Review process and the outcomes to date are provided in Attachment 1: Minor Review SCP – Supplementary SCP. The outcomes of the Review are:

1. The Strategic Community Plan is, overall, still fit for purpose.
2. However, there are some matters that will need to be addressed through recognising their emergence since the SCP was adopted and for this to be reflected further in the next Major Review (25/26):
 - a. A specific success factor regarding young people:
 - I. Children (Up to Age 14)
 - II. Youth (Age 15 – 24)
 - b. Modifying the success factor regarding the permanent supply of water to the town of Mogumber to one that encapsulates the outcomes of the Water Strategy
 - c. Reframing of the success factor regarding staff housing (key worker housing)
 - d. Consideration of the impact/solution regarding key developments for emerging industries:
 - I. Mining
 - II. The Energy Transition
 - III. Space Capability
 - e. Creating a specific focus regarding a Regional Waste Facility
3. The Long Term Financial Plan, the Corporate Business Plan, the Asset Management Plan and Information Communication and Technology Plan are still fit for purpose. The WFP will need updating to reflect the current organisational structure and requirements. Its action Plan is still valid.

In terms of the above outcomes, the issues that have emerged since the adoption of the SCP have now been recognised and the Shire can now start framing these and, also, work towards including them as part of the Major Review for 2025/2026.

Shire Surveys and Engagement

During 2024, the Shire has conducted surveys/workshops regarding key worker housing, economic development, sport and recreation, community survey (re service provision and suggestions) and whether an animal pound is needed.

The responses to the provision of key worker housing, economic development and sport and recreation were well supported and confirmed that the Shire is on the right path regarding its strategic direction regarding these issues and so, can be modified accordingly.

Community Survey 2024

The Community Survey conducted in May 2024, received 13 responses, with 7 suggested improvements:

- 2 regarding the footpath program;
- 2 regarding supporting the remaining sporting bodies left in the Shire;
- 1 asking for the fire service to respond to “your query”

- 1 seeking/advocating/commenting:
 - Recycling bins for all properties
 - Behind regarding environmental sustainability
- 1 comment that said "Office Hours."

The SCP/CBP/WFP does address these issues:

- There is an annual footpath program in place;
- The new SRMP has as a key focus how to support the sporting bodies;
- Generally, the fire support service works well;
- Waste providers will not provide recycling services to all of the Shire's communities;
- With regard to improving environmental sustainability, the Shire has developed a draft bio-diversity plan, is developing a water strategy, is in the process of completing three waste transfer stations and is committed to the Energy Transition;
- The Office is appropriately manned.

Animal Pound Survey

The Shire to date has been unsuccessful in receiving funding to provide an animal pound. A survey was conducted recently to ascertain public opinion. The 19 responses received highlighted the following:

- 79% were in favour of the animal pound going ahead;
- 42% see wandering animals as a key issue and want a to see more of a ranger presence.

Staff will continue to seek funding so that the animal pound can be built and meetings have been held to see how the Ranger Service can be changed up within existing resources.

Integrated Planning and Reporting (IPR) – Advisory Standard 2016

The requirement to conduct the Minor Review is set out within the Achieving Standard of the IPR Advisory Standard:

Section 2 – Strategic Community Plan

Achieving Standard

A Strategic Review is undertaken every two years, alternating between a Minor Strategic Review and a Major Strategic Review.

Integrated Planning and Reporting – Framework and Guidelines September 2016

Section 5 – Strategic Reviews

A Minor Strategic Review is primarily a desktop exercise and usually focuses on resetting the Corporate Business Plan with consequential amendments to the core informing strategies as required. Assuming there are no major changes proposed, community engagement is discretionary. However, if significant changes are on the cards, then community engagement or consultation is expected. The degree of consultation or engagement should be reflective of the significance of the proposed change.

CORPORATE CONTEXT

Strategic Business Plan/Corporate Business Plan

The Minor Review encapsulates a number of strategic priorities within the SCP:

STRATEGIC PRIORITIES		WE KNOW WE ARE SUCCEEDING WHEN	
4. CIVIC LEADERSHIP			
4.1 Forward planning and implementation of plans to achieve community priorities		Performance against targets are regularly reported to the community	
		Demonstrated progress towards achievement of the Corporate Business Plan	
4.2 Shire communication is regular, clear and transparent		Residents and community groups believe they are being listened to and fairly treated	
		Positive feedback through our customer survey	
		Council and Staff work closely with the community to successfully achieve projects or outcomes that deliver upon priorities

The CBP does take into account:

- Matters regarding the supply of a consistent water supply across the Shire re Mogumber, Gillingarra and Calingiri (Gouge Rd)
- The Economic Development Strategy deals with key emerging industries and their impacts
- Through addressing the Shire's housing stock, this also opens the door on key worker housing across the Shire

Minor (2 Year) Review of SCP

The Process – Desktop Review

THE MINOR REVIEW PROCESS

The Minor Review Process consisted of the following steps/milestones:

Meeting One - Key Staff – October

- Environmental scan of the SCP
- Discussion re changes required to LTFP, WFP and ICT Plans

Meeting Two – Key Staff – November

- Finalisation of the proposed amendments to the SCP, with the result being minor wording changes, removal of duplications and any completed strategies;
- Finalisation of any changes to LTFP, WFP and ICT Plans.

Meeting Three – Council Workshop – December

- Consultation with respect to the minor review and the proposed changes

Adoption of SCP Changes – December OCM

- Ideally, the SCP and any other plans that have been tweaked should be presented at the same time.

Who is Doing What re Informing Strategies?

- **Corporate Business Plan (CEO).** The annual review of the CBP was completed in July 2024 and so no further action is required. However, it may need tweaking if there are minor amendments made to the SCP;
- **Asset Management Plan (CEO).** The review of the AMP is already underway, through the development of a draft Asset Management Strategy. This will help us address any underperforming asset ratios. Also, we will need to identify who should undertake asset management tasks going forward;
- **Workforce Plan (HR/Payroll).** This plan requires a review to:
 - Identify any future staffing gaps in light of recent changes/expected developments across the Shire; and
 - That the strategies to support and develop the workforce are correct;
- **Long Term Financial Plan (DCEO).** Superficial Review only:
 - The financial information is reported in a more succinct way; and
 - The supporting data can be revised to help address underperforming financial ratios;
- **ICT Plan (DCEO).** Although this plan is new, a quick desktop review would be appropriate.

Minor Review Outcomes - SCP

The Minor Review of the Integrated Strategic Plan (SCP) confirmed the following:

1. The Strategic Community Plan is, overall, still fit for purpose
2. However, there are some matters that will need to be addressed through recognising the need for their inclusion as part of the Major Review:
 - a. A specific success factor regarding young people:
 - i. Children (Up to Age 14)
 - ii. Youth (Age 15 – 24)
 - b. Modifying the success factor regarding the permanent supply of water to the town of Mogumber to one that encapsulates the outcomes of the Water Strategy

- Through addressing the Shire's housing stock, this also opens the door on key worker housing across the Shire

Minor Review Outcomes – CBP & AMP

The Minor Review confirmed the following regarding the **Corporate Business Plan**:

- Updates to the CBP are undertaken as part of the annual review of the CBP
- The CBP is fit for purpose in its current configuration

The Minor Review confirmed the following regarding the **Asset Management Plan**:

- The Asset Management Plan (AMP) is fit for purpose
- The AMP Strategy has been completed
- Work has commenced on the rolling out of the action plan that underpins the AMP Strategy:
 - Development of the Five Year Forward Capital Works Plan
 - Development of the review of assets on an annual, rotational basis

Minor Review Outcomes – Long Term Financial Plan

The LTFP is essentially still fit for purpose and whilst some of the numbers are not reflective in actuals – this will be fully reviewed and recast in the 3rd quarter of 24-25. Of note:

- Inflation factored at 8.3% is slightly higher than the actuals but still within an acceptable margin.
- Operating Expenditure was over forecast by \$1.007m mainly due to depreciation which comprised \$0.829m. Factoring this in and the excess inflationary number we're probably on point.
- Operating Income was on forecast
- Investing Activities was significantly different where the LTFP forecast was virtually a nil effect (i.e. Capital Income equalled Capital Exp) but actuals for 23-24 was a net capital expenditure deficit of \$1.813m
- Some of this was offset by increased transfer from Reserves and with the net gain in the operating result and opening actual surplus of \$0.890m compared to \$0 in the LTFP meant for 23/24 the shire finished with a modest surplus of \$0.101m

Minor Review Outcomes – ICT Plan

The ICT Strategic Plan has been reviewed and believe it is still fit for purpose. There has been some updates to the Roadmap which can be included in the narrative but we have not come full circle to close them off. This includes:

ICT replacement Program Plan

- WCS has an IT Asset Register
- We have replaced a number of the ICT Assets now
- What we haven't done is bring this all into a policy and IT Management Plan.

ICT Business Systems Management Plan

- We have migrated from SynergySoft to CouncilFirst
- Most of our data is now in cloud services
- What we haven't done is fully retire Synergy which will be in Jan 25, close off on the need for Remote Desktop Services (RDS), On premises server consolidation, other applications such as InfoCouncil.

Minor Review Outcomes - WFP

The Shire's organisational chart requires updating to reflect changes to the business units:

Business Unit	Position Change	Other	FTE
CEO	- Community Development Officer - Records Officer	Moved from Office of the CEO Office to the Deputy CEO	
	Environmental Sustainability Officer	New role - shared 50/50 with Shire of Toodyay as per the Work Force Plan	0.5
